TOLLS FIGHT

Repeal Bills Up In House F. McCombs, chairman of the Na-And Senate.

Bryan to Explain Treaty Giving Fortification Rights With Nicaragua.

Washington, March 15 .- Open 'debate on repeal of the toll exemption clause of the Panama Canal Act will begin late this week in the House, and a vote in that body on the Sims bill, to carry out the recommendations of President Wilson, is expected by Saturday night.

In the Senate an earnest effort will be made by Administration leaders to pave the way for early action on the issue by bringing it squarely before the Committee on Interoceanic Canals for consideration and report can come to any lyceum company is first to reach her side was J. Lith- guilty, was that "having been ordered of Madero. They look upon Villa as tabled, as made by Senator Frost, to by the time the House has disposed of the subject.

Opposing forces in both houses are arrayed for the fight, the prospect being that the champions of toll exemption for American coastwise ships will lose when the rol' calls have been taken in both houses. Representatives Adamson and Sims, in charge of the repeal forces in the House, ard only doubtful as to the size of the majority their cause will have. They predict that it will be large, while Majority Leader Underwood ar! some of the Democrats who agree with him that it is an economic mistake to reverse the Nation's policy the Ohio County Drug Co. regarding canal tolls, insist that the vote will be close.

ator O'Gorman, chairman of the Committee of Interoceanic Canals, is awaited with interest in view of the fact that Senator Owen, a majority member of the committee, has introduced a bill smillar to the Sims bill for the purpose of expediting settlement of the controversy as soon as possible. Senator Owen seeks to have the committee take the repeal bill up at once and pass upon it.

Splendors of World's Greatest Exposition Revealed by Present Marvels

Conclave of Nations Unsurpassed in History at San Francisco in 1915

MARVELOUS PANAMA-PACIFIC INTERNATIONAL EXPOSITION WILL OPEN UPON A COMPLETED ASSEMBLAGE OF THE TREASURES OF THE WORLD'S ARTS, SCIENCES AND INDUSTRIES

A conclave of nations unsurpassed in the history of the world will assemble at San Francisco when the marvelous Panama-Pacific International exposition opens on February 20, 1915.

Today, the Panama-Pacific International exposition overshadows and eclipses any commemorative and instructive exhibition in history. Progress In all phases of this most brilliant and comprehensive of world's celebrations visualizes the exposition as it will appear when the exhibits of the world are installed within its spacious halls, when hundreds of thousands of rare trees plants and shrubs brought from far corners of the globe have transformed the grounds into a semitropical paradise and when from the Golden Gate the traveler will behold the vast Exposition city rising to great heights against the walls of the encircling amphitheater of the hills of San Francisco.

In the assured participation of the foreign nations and of the commercial and industrial interests of the world the Panama-Pacific International exposition stands alone among the great expositions of the past.

As a tribute to America's heroic task in the completion of the Panama canal 33 of the world's great nations have formally accepted the invitation of the president to take part in the celebration and are now engaged in preparing magnificent displays, which will illustrate their progress in every line of social and industrial activity. The Argentine leads with a government appropriation of \$1,300,000 (gold), and in its magnificent pavilion will be presented the wonders of that far-away land. Canada will expend \$600,000; Japan, \$600,000; China, \$800,000; Turkey, \$300,000, and in the Turkish pavilion will be shown the rarest and costliest treasures of the Ottoman empire. New Zealand and Australia will make tremendous displays. Fifteen hundred manufacturers in Germany will make a collective exhibit, to be shown in a great German building; 600 manufacturers from England will present a combined exhibit.

More than 500,000 accredited delegates from all parts of the globe will attend a series of great international conventions and congresses to be held at San Francisco during the exposition. Among the congresses will be the great International Engineering congress, of which Col. George W. Goethals, builder of the Panama canal, is chairman.

Thousands of visitors from all parts of the globe are planning to see the great exposition at San Francisco in 1915, and wonderful preparations are being made to transport and to care for them.

The howdah upon the elephant will be 188 feet above the floors of the court; the group itself will be 42 feet in height. This huge arch, breathing the spirit of the Orient, will be upon the east side of the great Central court, the Court of the Sun and Stars. Upon the west side of the court will be an arch typifying Occidental civilization.

The superb Palace of Horticulture at the Panama-Pacific International exposition in San Francisco in 1915 will be surmounted by a vast dome of glass, supported with immense steel trusses. The dome will be 186 teet in beight and 152 feet in diameter. At night batteries of colored searchlights will play on the inside of the dome from within the building, so that it will present the appearance of a gigantic scap bubble continuously changing to every color of the rainbow.

When the sculptors at the Panama-Pacific International Exposition began their work they had as an inspiration a task which has appealed to the imagination of the world for centuries, the cutting of the barrier between the Atlantic and Pacific oceans in the Panama canal, and so they have reproduced in the sculpture figures of the early explorers, pirates, the adventurers of the seas, the pioneers, pathfinders. In May, 1915, the Panama-Pacific International exposition at San Francisco will be the gathering place of the most expert aeronauts from all the civilized nations of the globe, when the start is made of the great aerial race-aroundthe-world for a prize of \$300,000, the largest sum ever offered for any single sporting event in history. Every description of motor-driven air craft will participate in this stupendous loop-the-loop around the globe. The race will represent the climax of all the world's aeronautical activities and will stand for all time as an immortal epic of human daring, human ingenuity, and the marvelous epitome of the progress of mankind. It will be the supreme adventure of our day. As an achievement, it will mark a historic cycle that will compare with the crossing of the Atlantic by Columbus and the circumnavigation of the world by the fleet of Magellan in 1522. Aviators have long discussed the project of round-the-world aeroplane tours.

This photograph shows the enlarged figures for the colossal group, "Nations of the East," to crown the Arch of the Rising Sun at the Panama-Pacific International exposition at San Francisco in 1915. With the exception of the elephant and the camel on the left all the figures are completed. The elephant, however, will be surmounted by a bowdah and the camel by a rider. The group in its entirety is the conception of A. Stirling Calder, with whom Frederick G. R. Roth and Leo Lentelli co-operated. The huge elephant in the center of the group was modeled by Mr. Roth, who also modeled the camels. The mounted horsemen were modeled by Leo Lentelli. From left to right the figures are: Arab warrior, negro servitor bearing baskets of fruit, camel and rider, falconer, elephant, representing India; Buddhist lama, bearing emblem of authority; camel and rider, negro servitor, Mongolian warrior.

The first time an aeroplane ever flew inside a building was when Lincoln Beachey, the famous aviator, flew in the huge Paiace of Machinery on the grounds of the Panama-Pacific International exposition to open in San Francisco on February 20, 1915. The Palace of Machinery is almost 1,000 feet long and 136 feet high. Beachey passed from one end to the other of the building, flying for more than 300 feet and at height of 60 feet. The most remark. able feature of the flight was that he had to steer a straight course down the center aisle, which is 75 feet in width.

DISCIPLINE AT SEA

Penalties and Privileges Aboard Ship In Former Days.

Some remarkable advice to seafarers is given in an old Portuguese book published for the guidance of mariners. Among other things it deals with the rights of captains to assault sailors and the methods in which the attacks are to be legally met.

The sailor was advised to bear calmly any verbal abuse that an irate skipper may burl at him, but if words passed to blows he was to run away into the bows and firmly take his stand beside the anchor chain.

Should an infuriated master armed with a belaying pin or other lethal weapon chase him to his stronghold the mariner was to slip round to the farther side of the chain. Should be messmates to witness that the master the chain.

Waiting For a Miracle. Advocates of the watchful waiting policy are now voicing a hope that

the man of the hour may arise in Mexico. As the St. Louis Republic expresses it: "It is hoped that a leader may appear and a party develop through which the country may its weight decreases in inverse ratio to be pacified and constitutional government re-established." Huerta does one appear to be crumbling as rapidly as the president supposed some weeks ago. He has not yet succumbed to the financial siege. By direct pounds at a point 4,000 miles high. At and indirect confiscation he supplies twice the distance it has one-quarter his government with funds. While his hands are covered with bloody spots, Gen Villa, once hope of the constitutionalists, is likewise accumulating indelible stains. Brigandage is rampant throughout the country, The reason for this is that at 2,000 regardless of what leader may be in miles from the center the body is on nominal control. Hundreds of mil-

The elder Diaz remains of the earth is now outside it and can at a safe distance and is too old to resume his iron grip on affairs. The supposition that John Lind has been on a Diogenic quest for the man is dispelled by correspondents who have visited his retreat in the rear of the consul's office at Vera Cruz. He still hugs the delusion that Villa and Carranza will soon conquer the country and that under the purifying influence of authority they will erect a noble government of the people, for the people and by the people. Whether William Bayard Hale is still acting as a dipomatic scout among such Mexican leaders as do not insist on inspecting his credentials can not be ascertained.

EARTH TO BECOME MAN'S PARADISE

How This Will Be Done Is the Gospel Message.

The Earthly Paradise-Lost Through Disobedience-Redeemed at Calvary. Messian's Great Work-The Restoration of Paradise-"The Story of the Cross"-Importance of Character Development-Its Effect on the Future Life-The Heavenly Paradise--Who May Attain It-How-The Alternative of Paradise, the Second Death.

March 15.-Pas tor Russell today depicted the beauties of Paradise. sented in his free Photo-Drama. His text was, "I will make the place of My feet glorious." -Isaiah 60:13.

Paradise is an-Garden of Eden. began the Pastor. It was lost through the disobedience

make the place of His feet-His footstool-glorious.

The Pastor then briefly reviewed the story of man's fall from Divine favorthe loss of Paradise. He next showed that God's Promise to Abraham, that in his Seed all the families of the earth shall be blessed, includes the thought of man's full restoration to Divine favor, as before man came under the death sentence. Thus the Jews, he declared, hoped that Messiah would come and constitute their nation the earthly Kingdom of God, and re-estabfish Paradise, with Palestine as its center, from which the Divine Law would extend to all, gradually bringing them back into harmony with God.

"The Garden of the Lord."

The Pastor explained that the dying thief's request was based upon the Jewish hope of becoming the Divine instrument to establish righteousness in the earth and thus to convert it into the Paradise of God. Our Lord's reply was that his request would be granted. Paradise has not yet been God's Kingdom has not yet come. It afforded him much satisfaction. delays until the work for the Church

shall be accomplished. The Church, the Pastor showed, constitutes a new nation. Spiritual Israel. selected since Pentecost from all nations. These will, with the Redeemer. be the Kingdom class, after the foreordained number shall have been glorified on the spirit plane.

Next the Pastor demonstrated from Scripture that Paradise is used to designate two different conditions; one earthly, the other Heavenly. The earthly Paradise is for man's blessing. after the race has been restored to perfection by obedience during the Millennial Age. The Heavenly Paradise is a figurative expression, applying to the glorious position which God has in reservation for the Church. We read in the Revelation that the overcomers will "eat of the tree of life, in the midst of the Paradise of God."

The World's Regeneration.

The Pastor then briefly discussed the Book of Revelation, which he declares is a grandly beautiful and symbolic picture of the Gospel and Millennia! future state will all be Paradise.

The speaker quoted many passages from the Prophets, describing the comblind eyes shall be opened. They shall dranath Tagore. learn to walk in the path of righteousness and to see the goodness of God. The willing and obedient shall eat of the good of the land, but evil-doers

shall be cut off in the Second Death. Next the Pastor discussed the story of redemption. After Adam had lost the earthly Paradise, through disobedience to his Creator's just command. under the death sentence. Because a must be a perfect man, who must die in order to effect the sinner's release from death. As Adam's fall involved his posterity and their Paradise home. so our Redeemer will restore Adam's

family-the world-to all that was lost This work of restoration, the Pastor believes, will be accomplished by Mes siah at His Second Coming. But sin will always be objectionable to God The Divine sentence is that no sinner may have everlasting life. Hence the offer of Divine Grace is merely that whoever will may have Divine as sistance out of sin and death conditions. The wilfully disobedient will have no part in life everlasting. Their portion will be the alternative of Para-

dise-the Second Death. Then the l'astor spoke upon the importance of right character-development. Every good and noble deed of the present tife works out character which will be helpful in the future ife. Correspondingly, every violation of conscience and principle impairs character. This also will affect the future life, and retard progress.

WEST POINT DISCIPLINE.

Its System of Demerits and the Sunday Morning Services.

The rigor of discipline at West Point does not leave behind many memories of halcyon college days. There are no week end larks, for, constantly under the surveillance of the officers, the cadets are never permitted to leave except under military orders. If they ride to the adjoining town, Highland Falls, they must not dismount or let their feet touch any soil outside the reservation.

How severe the system of regulating the standard of the several cadets is may be learned from the fact that some 18,000 acts of each appointee are "marked" during his four years course. any one of which must be passed as good or given one or more demerits. "Late at roll call" insures one demerit; "absence from duty." ten marks; "slight untidiness in dress." one; "inattention at drill or other duty," five, and so on. If in six months out of some 2.000 events a hundred demerits so beautifully pre- accumulate the unfortunate student is dismissed from the academy.

At half past 10 every Sunday morning the cadets gather in front of the stone barracks, as trimly kept as any Fifth avenue mansion, and form in line, with faultless uniforms, natty white belts and sash, and march up other name for the the hill to the chapel service. It is something of a walk, as some of the putting visitors observed on reaching the summit terrace. Silently and in of our first parents, but our gracious perfect time and order the cadets Creator's promise is that it shall be re change formation and file into the stored. Eventually the whole earth chapel under rows of historical regishall become the Paradise of God. The mental banners, some of which had Scriptures assure us that Heaven is seen service nearly a century ago. God's Throne and the earth His foot. Some of the old stands of colors were stool, and that in due time He will threadbare, but the field of blue always remained with its story of a nation's development, bearing constellations of from thirteen to forty-eight stars in their imperishable fields of blue.

The cadet choir marches down the aisle singing "Onward, Christian Soldiers," and the ringing voices of those 500 cadets once heard can never be forgotten. The finale, the Dresden hymn, as sung by the West Point choir is an event that musicians from all parts of the world come to hear. The services throughout were impressive and conducted with military precision -National Magazine.

TAMED THE PIANO.

An Unmusical Variation In One

Gottschalk's Concerts. Gottschalk, the planist, was noted for his enormous physical strength almost as much as for his brilliance as a pianist. On one occasion he gave a practical illustration of his strength which, while it did not display his disposition established, the speaker declared; for in the most amiable light, undoubtedly

This repeated rapping of his knuck les at last began to have an irritating effect on him, as the audience could plainly see. Suddenly after a particularly hard rap he stopped short in the middle of his selection, wrenched the offending cover out of the instrument by main force and burled it across the platform with great violence. Then, with a smile of the greatest satisfaction, he reseated himself at the piano and continued his playing. - Chicago Record-Herald.
